DETAILED ACTION

This action is responsive to applicants' amendment filed April 26, 2005. The amendment has been considered, however, it does not place the application in condition for allowance.

Withdrawn Rejection

The rejection of claims 38-49 in the Office Action mailed February 9, 2005 has been withdrawn in view of the arguments filed April 26, 2005.

Claim Rejections - 35 USC § 103

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim 34-49 are rejected under 35 U.S.C. 103(a) as being unpatentable over Barbut et al (Barbut) (USP 5,662,671) in view of Macoviak et al (Macoviak) (USP 6,361,545) and Samuels (USP 5,848,964).

The Barbut patent discloses an embolic filtering device having limitations of:

- a support hoop (70);
- attached to elongate member (51) via spokes (55);
- distally facing blood permeable sac (75) and an;

an articulation region (joints between tubes 57 and 70, best illustrated in figure 2.

Barbut discloses each of the limitation of claim 34 except it does not disclose a support hoop that is non-inflatable. Likewise, Samuels teaches a similar device. However, the patent to Macoviak suggests substituting a superelastic wire hoop support for an inflatable support hoop. It would have been obvious to one having ordinary skill in the

art at the time of the invention was made to substitute Barbut's inflatable support hoop for a non-inflatable support hoop as suggested by Macoviak.

Concerning claim 38, the Barbut and Macoviak references herein disclose a delivery sheath for receiving the filtering devices. The sheaths have a proximal opening (cavity) for receiving said filters. See Macoviak, figure 42, element 538.

Response to Arguments

Applicant's arguments with respect to claims 34-49 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
